SAI SANGEETH V

System Administrator | Windows and Linux | Network and Information Security

Kannur, Kerala, India | 7034242550 | saisangeeth@gmail.com

LinkedIn: linkedin.com/in/sai-sangeethv | GitHub: github.com/sai998

PROFESSIONAL SUMMARY

Junior System Engineer with about one year of hands-on systems administration experience supporting cooperative banking environments across Kerala. Install, configure and upgrade Windows and Linux servers, desktops and laptops, set up user accounts and workstations, monitor system performance and health, manage Active Directory and Group Policy, and maintain networking (Wi-Fi, TCP/IP, DNS, DHCP, VPN, firewalls, SD-WAN) and information security tooling (Wazuh SIEM, CrowdStrike, Sophos AV). Support hardware and software issues on Windows desktops and laptops, with basic AWS console and access support exposure, work with SaaS and open-source tools (Microsoft 365, Slack alerting, Wazuh, Zabbix), use Python, Bash and PowerShell scripting with APIs, webhooks and JSON, and document incidents, resolutions and escalations. Communicate and coordinate with IT teams and non-technical users.

CORE SKILLS

IT Support: device setup and configuration, workstation setup, software and hardware installation, user account setup, system upgrades, performance and health monitoring, first- and second-level technical support, routine maintenance, system updates, remote support, on-site support, desktop and laptop troubleshooting, printer and scanner support, hardware and software troubleshooting, explaining technical issues to non-technical users

Systems and Network Administration: systems administration, server administration, network administration, firewall security, network security, information security, computer systems, Windows Server, Ubuntu, RHEL, VMware

Windows and User Management: Windows 10/11, Windows Server, Active Directory, Microsoft 365, user account management, Group Policy, password-policy tasks, account-lockout troubleshooting, WSUS, patch management, software updates and upgrades

Networking: LAN/WAN troubleshooting, wireless network, Wi-Fi, wireless access points, switch and router configuration, TCP/IP, DNS, DHCP, VPN, HPE Aruba/Silver Peak SD-WAN, Cisco Networking Fundamentals

Endpoint and Network Security: Sophos AV, CrowdStrike, endpoint security, FortiGate, Sophos XG/XGS firewalls

Monitoring: Zabbix (SNMPv3), Wazuh SIEM, log monitoring, incident troubleshooting

Other Systems: Ubuntu, RHEL, VMware, backups, disk and LVM management, service and log troubleshooting

Scripting and Automation: Python, Bash, PowerShell, APIs, webhooks, JSON, T-SQL

Cloud: AWS (basic console and access support exposure)

SaaS and Open-Source Tools: Microsoft 365, Slack alerting, Wazuh, Zabbix, Ubuntu, RHEL

Documentation: incident records, resolution notes, escalation reports, technical documentation, incident and escalation management, collaboration with IT teams and users

Security Basics: vulnerability assessment, CVE analysis, Nmap, Burp Suite, OWASP ZAP, Nikto, VAPT reporting

PROFESSIONAL EXPERIENCE

Junior System Engineer | Banihai Technologies LLP | Kozhikode, India | Nov 2025 - Present

- Set up workstations and user accounts; provide remote and on-site technical support for hardware and software issues, including desktop, laptop, printer and scanner troubleshooting.
- Explain technical issues and resolutions clearly to non-technical users.
- Troubleshoot LAN/WAN connectivity, DNS, DHCP and firewall issues across multiple cooperative banking client environments; document incidents, resolutions and escalations.
- Configure and troubleshoot Wi-Fi, wireless access points, switches and routers.
- Manage Active Directory user accounts and Group Policy, including password-policy tasks and account-lockout troubleshooting.
- Work with Microsoft 365 alongside Active Directory in client environments.
- Work with endpoint security tools including Sophos AV and CrowdStrike.
- Install, configure, upgrade and maintain Windows and Linux servers; monitor system performance and health (services, logs, disk usage, backups); apply routine patches and upgrades.

- Resolved a production WSUS issue (SUSDB in RECOVERY_PENDING state, disk full): removed 4,313 obsolete updates using T-SQL and recovered 278 GB of storage.
- Administer FortiGate and Sophos XG/XGS firewalls, HPE Aruba/Silver Peak SD-WAN and Zabbix SNMPv3 monitoring.
- Led a Wazuh SIEM upgrade from v4.5.4 to v4.14.4 (Indexer, Manager, Filebeat, Dashboard) and upgraded 30+ agents across RHEL, Ubuntu and Windows.

Cybersecurity Intern | Infotact Solutions | Bengaluru, India | May 2025 - Jul 2025

- Performed vulnerability assessments and web application security testing using Nmap, Burp Suite, OWASP ZAP and Nikto.
- Documented findings and remediation recommendations aligned with the OWASP Top 10 under senior guidance.

PROJECT

MaterialHub - Degree Project | Python, Django, MySQL, HTML, CSS, Bootstrap

- Built a construction-material management application with Admin, Dealer, Driver and Customer modules, role-based access control, OTP-based delivery verification and a MySQL schema.

CERTIFICATIONS

- Diploma in Cyber Security - Blitz Academy Pvt Ltd (Jan 2025 - Sep 2025)
- Introduction to Networking - Cisco Networking Academy
- Ethical Hacking Certificate - TUV SUD

EDUCATION

Bachelor of Computer Applications (BCA) - Indira Gandhi National Open University (IGNOU), Jan 2022 - Dec 2024
